

A powerful and versatile Chromebook experience

Chromebook Plus is a range of devices known for their performance, AI capabilities, ChromeOS platform and versatility. Boasting double the speed, memory and storage compared to standard Chromebooks, Chromebook Plus models are suitable for more demanding tasks like media editing and multitasking.

A new generation

We are treated to a new wave of devices more often than we can use them, often with little change from one iteration to the next. Google's new Chromebook Plus badge shows us something fresh while proving you can get much more for your money. With double the speed, double the memory and double the storage of other devices as standard, Chromebook Plus helps you do more of what you love.

AI-powered tools: Enhance clarity and lighting in video calls, cancel noise, blur backgrounds and leverage features like Google Photos Magic Eraser and Adobe Photoshop web app for creative work.

Fast and secure: Boot up in under 10 seconds and receive automatic updates behind the scenes. Benefit from built-in security features like the Titan C2 chip.

Cloud-based: Run Chrome web apps and Android applications from the Google Play Store, with your files accessible even offline thanks to local storage syncing.

Variety of models: Available in different screen sizes, designs and configurations to cater to diverse needs and budgets.
